## VACUUM CONVEYING OVERVIEW

- Do you need to transfer powders or granules?
- Are you tired of breakdown and maintenance costs of your belt, bucket or screw conveyors?
- Are you interested in an easy way to eliminate OH&S issues of operators handling large bags of products/additives?

### Examples of Applications

- Food additives (salts, flavours, etc)
- Fine powder transfer (flours, cocoa, milk powders, etc)
- Sugar transfer
- Coffee transfer (beans, roasted and grind)
- Pharmaceutical powders and finished products
- Chemical powders (cleaning chemicals, water treatment additives, etc)
- Metal oxide powders (magnesium, aluminium etc)
- Coal dust

Call us now to find a solution for your product!

1300 4 PNEUMATICS

## INCREASE YOUR PRODUCTIVITY

### Application Specifications
